

Trainings on Busfleet Modernisation & Bus Technologies

TUMI – Capacity Development Catalogue

Description

The Transformative Urban Mobility Initiative (TUMI) is the leading global implementation initiative on sustainable mobility formed through the union of 11 prestigious partners (ADB, C40 Cities, CAF Development Bank, GIZ, BMZ, KfW Development Bank, ICLEI, ITDP, SLoCaT, UN-Habitat and WRI). TUMI partners offer a vast variety of knowledge and expertise through tailor-made capacity-building formats (webinars, e-learning, expert dialogues, dive-in trainings and the Urban Mobility Lab) on sustainable mobility topics.

TUMI offers a catalogue of specific courses on several topics. Courses available related to busfleet modernization are:

- Electromobility in Developing Countries and Emerging Economies (GIZ)
- Sustainable Urban Mobility in Developing Countries (GIZ-SUTP)
- Urban Transport Policy, Programs, and Planning (WRI)
- Online Training for Bus Rapid Transit Planning (GIZ-SUTP)

Contact

Get in touch with the TUMI Management Team via info@transformative-mobility.org

Once an application is received, TUMI will clarify the possibilities to conduct the activity in your preferred geographic location (unless otherwise stated in the course description), depending on the number of applicants and in the timeframe indicated by you.

Busworld Academy

Description

The Busworld Academy is a platform specialized in providing information on the many aspects of the bus and coach industry.

It acquires, bundles, and shares bus and coach related knowledge about all aspects of the industry, including technological developments to enhance sustainable mobility, legislation and markets.

Busworld Academy offers seminars worldwide on these issues on a permanent basis. An overview of past and future seminars is provided in the website, which also allows registration for the events.

Seminars are not available on demand, interested persons must check the website to find seminars that match their thematic and geographic interests.
