TUMI - Capacity Development Catalogue

Description

The Transformative Urban Mobility Initiative (TUMI) is the leading global implementation initiative on sustainable mobility formed through the union of 11 prestigious partners (ADB, C40 Cities, CAF Development Bank, GIZ, BMZ, KfW Development Bank, ICLEI, ITDP, SLoCaT, UN-Habitat and WRI).

TUMI partners offer a vast variety of knowledge and expertise through tailor-made capacity-building formats (webinars, e-learning, expert dialogues, dive-in trainings and the Urban Mobility Lab) on sustainable mobility topics.

TUMI offers a catalogue of specific courses on several SUMP-related topics, including:

1. Sustainable Urban Transport
2. Public Transport
3. Walking and Cycling
4. Clean Air and Climate Protection
5. Road Safety
6. Smart and Electric Mobility
7. Mass Transit Systems
8. Parking Management
9. Behavioural Change
10. Financing Transport

Contact

Get in touch with the TUMI Management Team via

info@transformative-mobility.org

Once an application is received, TUMI will clarify the possibilities to conduct the activity in your preferred geographic location (unless otherwise stated in the course description), depending on the number of applicants and in the timeframe indicated by you.

UITP Center for Training

Description

Offers a variety of trainings on a range of topics - either as classroom trainings or customised programmes. All training content, format, methodologies and length can be customised and new products can be developed depending on the company's needs and interests.

Thematic programmes available related to busfleet modernisation:

- Electric Buses
- Procurement and Commissioning of Buses
- Public Transport Maintenance and Asset Management
- BRT and Bus Priority Schemes
- Bus Network Design and Route Planning
- Bus Planning and Scheduling
- Formalisation of Informal Transport
- Regulation and Contracting in Public Transport
- Bus Transport Fundamentals
- Fundamentals of Trolleybus Systems
- Planning, Design and Building New Bus Depots
- Funding, Financing and PPPs

Pricing

Example for electric bus training:

- From 885 EUR (UITP members from developing nations) up to 2280 EUR (non-members).
- Group discounts available, prices vary according to membership and date of registration.

CIVITAS

Description

CIVITAS is a network of cities for cities dedicated to cleaner, better transport in Europe and beyond. Since it was launched by the European Commission in 2002, the CIVITAS Initiative has tested and implemented over 800 measures and urban transport solutions as part of demonstration projects in more than 80 Living Lab cities Europe-wide.

CIVITAS offers practitioners opportunities to see innovative solutions being developed and deployed first-hand, and learn from peers and experts working in the field. CIVITAS nurtures political commitment, new marketable solutions, and offers funding and knowledge exchange with a view to creating growth and better connected, more sustainable transport modes.

CIVITAS, together with ELTIS, Europe's urban mobility observatory, offers scheduled trainings on diverse SUMP issues on a regular basis. Trainings are recorded and made available at the CIVITAS Learning Centre, a large library of e-learning resources about all aspects of sustainable mobility. It includes recorded webinars, presentations, training material, among others.

German Partnership for Sustainable Mobility

Description

The German Partnership for Sustainable Mobility (GPSM) is serving as a guide for sustainable mobility and green logistics solutions from Germany. As a platform for exchanging knowledge, expertise and experiences, GPSM supports the transformation towards sustainability in developing and emerging countries. It serves as a network of information from academia, business, civil society and associations. The GPSM supports the implementation on sustainable mobility and green logistics solutions in a comprehensive manner.

GPSM does not directly offer any trainings but provides an exhaustive list of German organizations that provide trainings and related services on sustainable mobility to stakeholders in both developing and industrialized countries.
